ABOUT ME

I am a passionate and motivated Full Stack Developer with a strong foundation in both front-end and back-end technologies. Currently studying full-stack development, I have gained hands-on experience in building dynamic, responsive web applications. I am proficient in programming languages such as HTML, CSS, JavaScript, and frameworks like React for front-end development, as well as Node.js and Express for back-end development. I am also familiar with database management using both SQL and NoSQL systems.

My goal is to combine my technical skills with a deep understanding of user experience to create seamless, functional applications. I am eager to continue learning, collaborating, and growing as a developer in a dynamic team environment.

SKILLS

HTML
CSS
JavaScript
Bootstrap

React
Node
Express
MongoDB

UI Design (Figma)
Python

Web Development

- Collaborate with designers to translate UI/UX designs into functional components.
- Implement API integrations using axios and fetch. Designed and implemented RESTful API using Node.js and Express.
- Design and implement database schema using MongoDB and Mongoose.
- Worked with databases using MongoDB
- Participate in code reviews and contribute to codebase improvements.

Internships

Full Stack Developer Intern

VDart, Trichy | Feb 3, 2025 – Feb 21, 2025

- Contributed to live full-stack projects as part of a development team, focusing on both frontend and backend components.
- Built responsive user interfaces using React.js, leveraging hooks and component-based architecture.
- Developed backend APIs and handled server-side logic using Node.js and integrated with MongoDB/MySQL databases.
- Participated in code reviews, version control with Git, and debugging to ensure code quality and maintainability.

Web Development Intern

Internzlearn, Bangalore (Online) | Mar 5, 2025 – Apr 5, 2025

- Completed a structured online internship focused on full-stack web development projects.
- Built and deployed dynamic web applications using HTML, CSS, JavaScript, and React.js for frontend development.
- Assisted in backend development with Node.js and Express, and integrated with MongoDB/MySQL databases.
- Applied version control using Git and participated in virtual team discussions and code reviews.
- Delivered project components on time, demonstrating strong communication and time management in a remote setup.

EDUCATION & CERTIFICATIONS

Currently in
Bachelor of Computer Science and
Engineering in SRM TRP Engineering
College,Trichy.

Completed a course on Python for
DataScience in Nptel

ACTIVITIES

Languages known:
English & Tamil
